

BRAKE FLUID SYSTEM FLUSH

Removes oxidized brake fluid to help prevent system corrosion and reduce ABS component wear. This service helps to ensure safe and reliable brake operation.

Remove old fluid from master cylinder
Flush old fluid from lines
Replace with approved brake fluid
Bleed brake system
Roadtest

POWER STEERING FLUID FLUSH

Removes old fluid from throughout system, this service improves operation and helps extend the life of the pump and rack and pinion/steering box.

Remove contaminated fluid from system
Refill with approved power steering fluid
Check system for leaks
Roadtest

TRANSMISSION SERVICE

Helps to increase the life and performance of the transmission. Neglecting this service can lead to unnecessary repair costs.

Remove and clean transmission pan
Replace transmission filter, gasket and fluid
Check and adjust linkages as required
Roadtest

COOLING SYSTEM SERVICE

Prevents overheating, a major cause of mechanical breakdown.

Pressure test cooling system
Check all hoses
Flush system and replace with approved coolant

LUBE, OIL, AND FILTER WITH VEHICLE INSPECTION

Change engine oil and filter
Lube chassis if required
Lube doors & hood hinges
Check all fluid levels
Inspect tires for wear and damage
Check tire pressure
Check hoses and belts

Check air cleaner element
Check all lights and horn operation
Check windshield wiper operation and washer spray
Visual inspection of undercarriage ie: brake and fuel lines for leaks and damage, exhaust system components and suspension

DISC BRAKE SERVICE

To ensure optimum braking, and help prevent premature wear.

Service calipers and slide pins
Inspect and service pads
Clean and lubricate all contact points
Inspect lines and hoses
Roadtest

REAR DRUM BRAKE SERVICE

To ensure optimum braking, and help prevent premature wear.

Remove and clean drums
Inspect, clean, service and adjust shoes
Lubricate all contact point
Inspect wheel cylinders and lines
Roadtest

THE FORGOTTEN FLUIDS

Front-rear differential and transfer case fluids are often neglected, changing of these fluids are essential to the proper operation of these components. Costly repairs and premature breakdown can help be avoided by regular servicing.

Check operation of components
Drain and replace with approved fluid
Roadtest

MOTORVAC CARBON CLEAN FUEL SYSTEM SERVICE

This complete fuel system service will remove carbon, dirt, gums and varnishes from your throttle body, intake manifold, injectors, valves, combustion chamber, exhaust, oxygen sensor and catalytic converter. This helps restore new car performance, fuel economy and lowers cars emissions.

SERVICE NUMBER 1

- Lube, oil, and filter
- Vehicle inspection

1A Includes service 1 plus:

- Transmission service
- Power steering fluid flush

1B Includes service 1 plus:

- Dexcool cooling system
- service/flush (every five years)

SERVICE NUMBER 2

- Lube, oil, and filter
- Vehicle inspection
- Tire rotation

2A Includes service 2 plus:

- Transmission service
- Power steering fluid flush

SERVICE NUMBER 3

- Lube, oil, and filter
- Vehicle inspection
- Tire rotation and balance
- Front and rear brake service
- Clean or replace pollen filter if equipped

3A Includes service 3 plus:

- Check and replace air and fuel filter as required

SERVICE NUMBER 4

- Lube, oil, and filter
- Vehicle inspection
- Throttle body service
- Wheel alignment

SERVICE NUMBER 5

- Lube, oil, and filter
- Vehicle inspection
- Replace PCV
- Brake fluid system flush
- Front diff. service
- Rear diff. service

5A Includes service 5 plus:

- Tire rotation

5B Includes service 5 plus:

- Tire rotation and balance
- Front and rear brake service
- Clean and replace pollen filter if equipped

SERVICE NUMBER 6

- Lube, oil, and filter
- Vehicle inspection
- Tire rotation
- Motorvac carbon clean fuel service
- Check spark plugs (platinum)
- Replace spark plugs (non platinum)
- Wheel alignment
- Transfer case service

SERVICE NUMBER 7

- Lube, oil, and filter
- Vehicle inspection
- Tire rotation and balance
- Wheel alignment
- Front and rear brake service
- Motorvac carbon clean fuel service
- Check and replace spark plugs if required (platinum)
- Replace spark plugs (non platinum)
- Clean or replace pollen filter if equipped
- Transfer case service
- Replace timing belt if equipped

7A Includes service 7 plus:

- Check and replace air and fuel filters as required

Services may vary depending on the make and model of your vehicle.
